

Smart Calendar

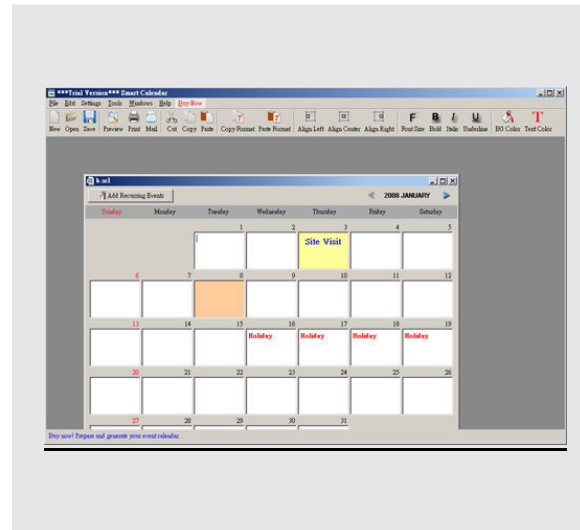

Manage and Prepare your Events Calendar

Manage Events Calendar

You can type your events into project calendar quickly and easily. It works like a traditional calendar. You choose the month for the calendar, and you will be provided with different day boxes to fill your project events.

You can adjust the **alignment**, **font style**, **background color**, and **text color** for the boxes.

You can use different colors to highlight your special events.

Export and Share Events Calendar

You can export the calendar into **PDF** or **HTML** format for sharing with your colleagues. The calendar can also be exported into **Excel** format for further process. Export as **Wall Calendar** or **Desk Calendar** is Easy. You can also set different paper size, A3, A4, A5, etc. With one click, the project calendar can be exported as PDF attachment in email.
